

We Change Lives and Influence People by:

1. Mediating disputes to reconcile *People*;
2. Environmental Advocacy to protect the *Planet*; and
3. Clean energy advocacy through charitable giving sustainably funded to enhance *Prosperity* by selling MPOWERD solar products.

In 2012 MPOWERD created Luci, the first inflatable solar light with the goal of making an affordable clean energy product that people could use in any situation. CLIP shares their clean energy vision.

As a B Corp, MPOWERD uses the power of business to build a more inclusive and sustainable economy. As a social enterprise, they reinvest a majority of their gross revenue to achieve sustainability, grow our reach and ensure the fulfillment of our mission. Aside from their Give Luci Program - which donates lights to their partners - their sustainable business model means that the more they sell in the United States, the more affordably they can sell to emerging markets (like Kenya) and nonprofits.

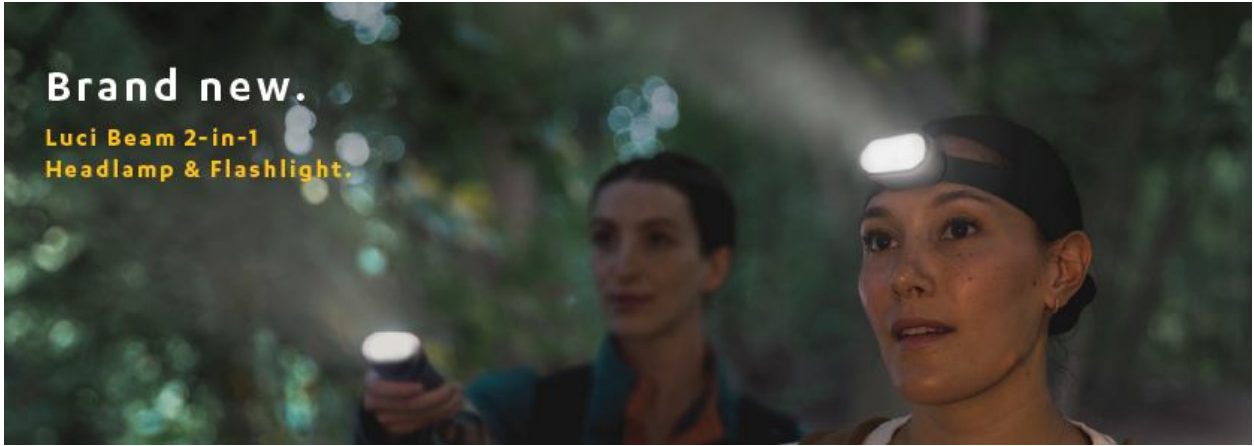

CLIP's MPOWERD catalogue

Lightweight. Pack it up and take it with you.

Waterproof. Leave it out in the rain.

Durable. Can withstand up to 150 lbs of pressure. Yes, really!

Completely solar. Just add sun.

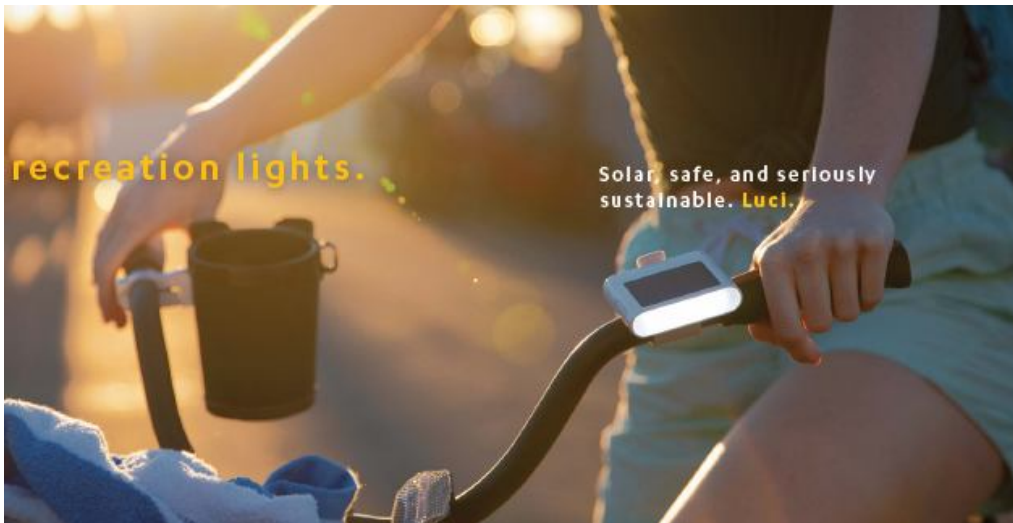

Luci Beam

This transformative light has the ability to switch from handheld flashlight to headlamp in a snap. From setting up the tent at night to looking for something in the attic, this convenient 2-in-1 Headlamp and Flashlight provides light wherever you need it.
